CNW UNDER 18S T20 COMPETITION GRAND FINAL

Congratulations to Sheffield CC, who took out the Under 18s T20 premiership last Friday!

Burnie Hurricanes elected to bat first but faced early trouble, losing regular wickets. Sheffield's Beau Woodiwiss was the standout with the ball, taking 3-14 off his 4 overs. Burnie's Jonti Dolting provided some resistance with a well-made 38 not out, helping his side reach 99 all out in the 19th over.

Sheffield's chase was steady, with Noah Milburn and Jonah Evans both scoring 30 runs. Burnie's Grant Lohrey put up a fight with 3-21, but the Mountaineers secured victory in the 17th over, finishing at 6/100.

A huge thank you to all clubs involved in this season's Under 18s T20 competition!

PLAYHQ STATS UPDATES AND ASSISTANCE

Throughout the season, it has been noted that some match details—such as catches and run-outs—have been missed when entering scores into **PlayHQ** or during **Live Scoring**. Additionally, if a player has participated as a fill-in before officially registering, their stats and qualification match can be updated accordingly.

To ensure all statistics and player awards are accurate at season's end, clubs with **written records** of missing catches, run-outs, or other discrepancies are encouraged to send these details to **Mitch Jones** (mjones@crickettas.com.au) for assistance with updates.

Your help in keeping records accurate is greatly appreciated.

UTAS CRADLE COAST LOCAL LEARNING LEADERS – CLUB ENGAGEMENT

The University of Tasmania (UTAS) Regional Partnerships team on the Cradle Coast are being funded in 2025 to deliver a community research trial. The funding through ACSES (Australian Centre for Student Equity and Success) will trial an intervention delivered in community organisations across the North West aiming to raise aspirations for higher education amongst groups of Local Learning Leaders who can then support people in their networks around education and career decision making.

The project is an opportunity to test the widely held view within our communities that volunteers and administrators in our community organisations can be a strong influence on the members they engage with and therefore can inform and shape a person's learning and career aspirations through their existing networks.

UTAS are looking to engage with local clubs to participate in the research which will involve recruitment of participants from across their member base for data collection and in some cases participation in a one-off workshop. Activities will be planned and delivered with each participating organisation to fit in and around their operations.

A small one-off donation will be made to the clubs for their involvement and their leadership to engage participants. Whilst individual participants will receive a voucher for their time participating in the workshop and data collection. Details of which will be worked through with the clubs individually.

The project commences in February and will be completed over 12-months, with the data collection and workshops planned to be rolled out over 6 months from around May.

Whilst this initial research project will be the focus of the relationships established, the aim is that this will inform future opportunities for research and community engagement across the North West region.

If clubs have any questions or are interested in being involved in this program please contact UTAS Manager of Regional Partnerships Kate Sims via kate.sims@utas.edu.au
