DECYP SCHOOL CRICKET PITCH USAGE INFORMATION

Following recent communications to schools and media coverage, please see below information relevant to Cricket provided by the DECYP Community Sport Liaison:

The current direction is a precautionary restriction on general recreational use of DECYP-owned concrete cricket pitches.

It does not prevent community use or appropriately supervised school cricket activities from continuing.

Can cricket still be played on the pitch?

- Yes. **Cricket can continue to be played on the pitch.**
- Organised cricket during school time can continue where there is adequate supervision.
- This includes HPE activities and supervised organised cricket during recess and lunch.
- The direction relates to general recreational use of the pitch, rather than its intended use for supervised cricket activities.

What does 'out of bounds for recreational use' mean?

- Students should not use the concrete pitch as a general play or recreational area.
- Schools should take reasonable steps to prevent general recreational use of the pitch.
- The direction does not require the surrounding oval or broader area to be made out of bounds.

What about cricket nets?

- Cricket nets can continue to be used for their intended purpose

What does this mean for community users?

- Schools do not need to restrict community access to the broader facility or oval.
- Formal community users with hire agreements or arrangements should be notified of the information regarding recreational use of the concrete cricket pitch.
- Organised cricket can continue to be played on the pitch.

If clubs have further questions please reach out to Josh Marshall via jmarshall@crickettas.com.au or 0407 576 184 and he will follow-up with relevant contacts from the DECYP.
